Project 2 | Part 2

Student Information:

- Name: John Zimmerman
- Section: Mo/We
- Email: jzimmerman3@madisoncollege.edu

Planning List

Input Variables

- fahrenheit

Output Variables

- fahrenheit
- celsius

Process Checklist

1. Declare constants for the temperature offset and ratio
2. Declare variables
3. Prompt User for temperature in Fahrenheit
4. Calculate the the temperature in Celsius
5. Display the temperature in Fahrenheit and Celsius

Sample Output

```
Entered Fahrenheit Temperature: 77  
Calculated Celsius Temperature: 25
```

Your Output

```
Entered Fahrenheit Temperature: 77  
Calculated Celsius Temperature: 25
```
